

GAURAV ARYA

SOFTWARE ENGINEER

New Delhi 110085 | gauravarya272003@gmail.com | 8506824135 | <https://gaurav-portfolio-ebon.vercel.app/>

PROFESSIONAL SUMMARY

Computer Science student with strong command over full-stack web development and real-world experience in building scalable applications using React and Firebase. I take ownership from design to deployment, focusing on clean, efficient and user-centered solutions. As the Placement Cell President, I've led teams, handled pressure and driven results, developing both technical and leadership skills. I quickly grasp complex concepts (Btech Rank 1 Holder) and turn them into working solutions. I'm well-prepared to contribute meaningfully to fast-paced engineering teams

PROFESSIONAL EXPERIENCE

Microtek International Pvt Ltd

July 2024 – August 2024

- Collaborated with a cross-functional team to design and develop responsive frontend pages for a Vendor Onboarding Portal using ReactJS, improving user experience and usability.
- Implemented Firebase Authentication to secure the portal, reducing unauthorized access by **100%** and saving **2-3** hours of daily manual verification boosting onboarding efficiency by **40%**.

IBM SkillsBuild

July 2024 – August 2024

- Contributed to the development of the FitHub website, a centralized platform for fitness guidance, completing 100% of the project milestones on time.
- Developed and integrated the FitBuddy chatbot, an AI-driven virtual fitness companion, improving chatbot response time by 30%. Successfully deployed the website and chatbot within 5Weeks.

Internship,SAZ Enterprises

November 2023 – March 2024

- Developed a structured portal to monitor staff check-ins and attendance records efficiently.
- Implemented a digital system to track spare parts, manage stock levels, and automate billing.
- Streamlined workshop record management by implementing a digital tracking system that reduced record retrieval time by **40%** and ensured **100%** accuracy in inventory and transaction reporting for customer details.

PROJECTS

Project Abled (Unified Disability Dashboard)

- Using Vue Js and Python Developed an AI-powered accessibility platform enabling independent digital access for users with **disabilities** through **braille input, voice assistance and screen recognition** saving hours of daily navigation effort

Vaidika (Medical Data Tracking System)

- Using React.js, Java SpringBoot, MySQL and Python. Developed a user-focused health management platform, 'Vaidika', enabling simplified **interpretation of medical reports**, trend tracking and **personalized wellness recommendations** to support timely and informed health decisions.

BeAware (Mental health and well-being web-App)

- ReactJS, Python Flask API, Open Web UI, Ollama, Firebase
- Integrated LLM-based chatbot using Ollama with Open Web UI and contributed to frontend development, enhancing automation.

TripTogether (Travel companion and planning App)

- React Native, Firebase, and Google APIs
- Designed and developed UI/UX and Frontend for 'TripTogether', Enabled real-time user connections, destination discovery, and location-based travel utilities as part of Buildspace

SKILLS (L1 – BEGINNER | L2 – INTERMEDIATE | L3 – ADVANCED)

Programming Languages:	Web Development:	App Development:	Tools
• C++ (L2) • Java (L1) • SQL (L1) • Python(L2)	• ReactJS(L2) • NodeJS(L1) • ExpressJS(L1) • HTML,TailwindCSS	• React Native (L2) • Android Studio (L2) • Flutter (L1)	• Watson (L1) • Figma (L2) • Firebase (L2) • Git & GitHub

EDUCATION

Bachelor of Technology (B-Tech) in Computer Science

Nov 2022 - Aug 2026

- Guru Gobind Singh Indraprastha University (GPA: 9.383 / 10.00)

Class-12 CBSE (Physics,Chemistry,Maths)

2021 - 2022

- Mount Abu Public School (GPA: 9.7 / 10.00)

ADDITIONAL INFORMATION

- **PRESIDENT, PLACEMENT CELL (CAREER DEVELOPMENT CENTRE)**
- **CORE HEAD MEMBER , DANCE SOCIETY (INCREDIBLES)**
- **CORE MEMBER , THEATRE CLUB (RANGMANCH)**
